

PRESS RELEASE

INTERPUMP ACQUIRES FLUID SYSTEM 80

Sant'Ilario d'Enza (RE), 3 October 2017 – Interpump Group, as part of its ongoing pursuit to enhance local presence, announces the acquisition – through a subsidiary – of 100% of **Fluid System 80 S.r.l.**, a company designing and assembling hydraulic power packs and systems.

Today's acquisition strengthens Interpump's positioning in the hydraulic power pack market, where the Group is present since 2001 with the Hydroven brand.

Fluid System's products are employed in various industries: heavy mechanical, iron & steel, metals and nonferrous metal works, construction machinery. Significant commercial synergies can be achieved with other companies in both Water-Jetting and Hydraulics divisions of the Group, manufacturing components employed for these applications.

Fluid System's sales are expected to reach approximately 6 million euro in 2017. The price paid was 0.9 million euro.

The seller and founder will retain his role in the company.
