- GROUP OVERVIEW

- € 2.078m of turnover and € 457m of EBITDA (22% on net sales) in 2024 divided between two divisions
 - Hydraulics and Water Jetting
- **Hydraulics:** around 70% of Group sales, EBITDA margin around 20%
 - Wide range of components for mobile and non-mobile hydraulics: PTOs, cylinders, gear pumps, valves, hoses, fittings, ...
 - Additional businesses: reduction gears, hoses, fittings for non-hydraulic applications
- **Water Jetting:** around 30% of Group sales and EBITDA margin above 26%
 - High-pressure plunger piston pumps
 - Additional businesses: flow processing components for food&beverage, cosmetics and pharmaceutical components

- Since IPO in 1996 a track record of excellence and resilience
- Sales: around 8% of growth ⁽¹⁾, with only 5 years of decrease driven by strategic activities review ⁽²⁾ or extraordinary external events
 - Diversification by division, geography, product and market application
 - Complementary nature of two divisions
 - Consistent organic growth enhanced by M&A
- EBITDA: 9% of growth ⁽¹⁾, only 6 years of decrease
 - Business model and cost structure flexibility
 - Integration capability
 - E.g. Hydrocontrol ⁽²⁾ and IMM ⁽³⁾ in 2014 and White ⁽⁴⁾ in 2022

FLEXIBILITY

- Vertically integrated manufacturing (wherever possible)
- Use of general-purpose programmable machine tools (no rigid production lines)
 - Standard metal-working processes to facilitate outsourcing

Product mix and sales strategy
can adapt fast to market evolution

DIVERSIFICATION

- Across the widest possible range of applications, products, customers and geographies
- High share of local-for-local production

Standardisation & merger
to be executed when needed

GOVERNANCE

- Very decentralised structure, backed by centralised resources allocation and tight monitoring and control

Identity, brand, local supply chain
and sales force confirmation.
Seller taken on board as shareholder

M&A

- Not just “transactions”, a new chapter
 - Industrial multiples
 - Execution risk and restructuring cost reduction
- Soft skills and talents retention

- 2023-25 commitments, 1 target with 2 guidelines⁽¹⁾
- One target: sales
 - around 25% of total growth⁽²⁾
- Two guidelines: profitability and leverage
 - Profitability: above 22% EBITDA margin including possible M&A temporary dilution effect

- **GROUP OVERVIEW**
- **2025 OUTLOOK**

- April evolution⁽¹⁾ in line with Group expectations
 - Until now no evidence of both “Germany’s Infrastructure Fund” and “tariffs tensions” impacts
- Local and/or regional production – for most or even all production phases – has always been one of the most important milestones of Group international expansion to ensure the best possible customer service
 - Vast majority of US sales is produced locally, imported goods are coming mostly from Group European companies
 - Group is ready to adopt countermeasures to minimise or even counterbalance impacts on profitability
 - From surcharges to full price increases
 - Increasing local manufacturing activity if possible and convenient
- 2025 outlook
 - Sales: between -5% and +1% on organic basis
 - Around 2% of 2024 acquisitions impact⁽²⁾
 - EBITDA margin: between 22% and 22.5%
 - Diversification and flexibility
 - Cash generation: consolidate 2024 achievement
 - Ongoing TWC and CAPEX normalisation

The Group uses several alternative measures that are not identified as accounting parameters in the framework of the IFRS standards in order to allow the trend of economic operations and the Group's financial position to be better evaluated. Such indicators can also assist the directors in identifying operating trends and making decisions on investments, resource allocation and other business matters. The measurement criterion applied by the Group may therefore differ from the criteria adopted by other groups and so may not be comparable with them. Such alternative performance indicators are constituted exclusively starting from the Group's historical data and measured in compliance with the Guidelines on Alternative Performance Measures issued by ESMA/2015/1415 and adopted by Consob with communication no. 92543 of 3 December 2015. These indicators refer only to performance in the period illustrated in this Interim Board of Directors' Report and the comparative periods and not to expected performance, so they must not be seen as replacing the indicators required by the reference accounting standards (IFRS). Finally, the alternative indicators are processed with continuity and using uniform definitions and representations for all the periods for which financial information is included in this Interim Board of Directors' Report.

The performance indicators used by the Group are defined as follows:

- **Capital expenditure (CAPEX):** the sum of investment in property, plant and equipment and intangible assets, net of divestments;
- **Capital employed:** calculated as the sum of shareholders' equity and net financial position, including debts for the acquisition of equity investments;
- **Earnings/(Losses) before interest and tax (EBIT):** Net sales plus Other operating income less Operating costs (Cost of sales, Distribution costs, General and administrative expenses, and Other operating costs)
- **Earnings/(Losses) before interest, tax, depreciation and amortization (EBITDA):** EBIT plus depreciation, amortization, write-downs and provisions;
- **Free Cash Flow:** the cash flow available to the Group, defined as the difference between the cash flow of operating activities and the cash flow for investments in tangible and intangible fixed assets;
- **Net indebtedness (Net financial position):** calculated as the sum of Loans obtained and Bank borrowing less Cash and cash equivalents;
- **Organic:** at constant perimeter and FX
- **Return on capital employed (ROCE):** $\text{EBIT} / \text{Capital employed}$;
- **Return on equity (ROE):** $\text{Net profit} / \text{Shareholders' equity}$.

The Group's income statement is prepared by functional area (also called the "cost of sales" method). This form is deemed to be more representative than its "type of expense" counterpart, which is nevertheless included in the notes to the Annual Financial Report. The chosen form, in fact, complies with the internal reporting and business management methods. The cash flow statement was prepared using the indirect method.
