No atypical or unusual transactions have been carried out subsequent to the 3Q 2026 close that would call for a specific mention.

BUSINESS OUTLOOK

9M results are consistent with the Group's estimates, with a solid performance in Hydraulics and a slowdown of Water Jetting (the latter mostly driven by weak year-over-year comparison, with a meaningful order in 1H 2025), amid an overall volatile macro environment.
In light of these results, and based on the information currently available, the Group confirms the August FY 2026 forecasts of:

- organic revenue growth ranging between +1% and +3%;
- EBITDA margin between 22.0% and 22.5%;
- Consolidating the sound FCF achieved in 2025.
