BEST PERFORMANCE AWARD 2023-24

INTERPUMP GROUP “BEST PERFORMER OF THE YEAR”

Executive Chairman Fulvio Montipò:

“We are honored to receive this award from such a prestigious institution and are proud that the value of our extraordinary journey is recognized by a well-established, competent entity”

Sant’Ilario d’Enza (RE), February 16, 2024 – Interpump Group (IP.IM) is pleased to announce that it has been awarded the “Best Performer of the Year” award by the SDA Bocconi School of Management, the Business School of Bocconi University in Milan.

The company was recognized for its market positioning, technological innovation, and ability to create internal value. The evaluation was based on a multidimensional analysis that considered economic and financial indicators, as well as technological innovation, the company’s ability to create internal value, and its social and environmental impact.

This award is given to Italian companies that stand out for their growth – which is crucial for our economy, but historically too low – and excel in creating economic, technological, human, social and environmental value. The award is promoted by the SDA Bocconi School of Management in partnership with PwC Italia, Banca Mediolanum, the Umberto Veronesi Foundation, Havas PR and Radio DeeJay.
